TERRE DE MAIMBRAY 2021

TERROIR & SOIL

Blend of plots located on different slopes surrounding the village of Maimbray.  
Soil characteristics: **limestone** (40 %) and **clay-limestone** (60 %)

VINEYARD

**Pinot noir**

Pruning system: Guyot simple

Soil maintenance: **grass cover** between rows, **hoeing** under the row

Vine training: disbudding, tying-down, removal of unwanted leaves, thinning out when necessary

**Hand-picked** grapes

Surface: 2.48 hectares

Yield: 16 hectoliters by hectare (frost in April 2021 ...)

Vineyard average age: 25 years

Planting density: 7000 vinestocks by hectare

WINEMAKING

**Manual sorting** of the grapes.

Pre-fermentative **cold maceration**, followed by a four or five-weeks vatting in inox tanks, with a **gentle extraction** (by pumping-over and only one drying out)

Maturing in **demi muids** for 6 months before malolactic fermentation (spontaneous) and after that in **tronconic oak tanks** for 5 months.

**Unfiltered** wine

OTHERS INFORMATION

Alcohol: 12.81 % vol

Total acidity: 3.32 g/l H<sub>2</sub>SO<sub>4</sub>
